REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or combined, teaches or suggests particulates comprising silica and alumina wherein the amount of alumina is from 0.1 to 25 wt% having at least one intercommunicating void as required in the instant claims. The porous particulates as taught by the Dejaiffe reference (US 6,913,643) comprise closed pores with the open structure at the surface formed by broken cells (col. 5, lines 21-34); therefore, the internal pores (closed cells) cannot communicate to the surface of the particulate and the voids (broken cells) in the surface are closed to the interior of the particulate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. (Holly) T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 12:30 p.m. to 9:00 p.m. (EST), Mondays to Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Callie Shosho can be reached on 571-272-1123. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
